About Chateaux de la Loire

"Les Châteaux de la Loire" refers to the Loire Valley castles, a renowned collection of historic and picturesque castles located along the Loire River in central France. The Loire Valley, often referred to as the "Garden of France," is known for its stunning landscapes, vineyards, and, of course, the numerous châteaux that dot the region.

Historical Significance: The Loire Valley was a favored location for French royalty and nobility during the Renaissance, leading to the construction of many opulent and strategically positioned castles.

The châteaux in the Loire Valley showcase a wide range of architectural styles, from medieval fortresses to elegant Renaissance palaces. Some notable styles include Gothic, Renaissance, and even a blend of different architectural influences.

The Venue

Château de Sully-sur-Loire

The château of Sully-sur-Loire dates from the end of the 14th century and is a prime example of a medieval fortress. It was built at a strategic crossing of the Loire river. The château was expanded by Maximilien de Béthune, first duke of Sully and prime minister of King Henry IV of France (1560–1641), who is buried on the grounds of his château. The family of the dukes of Sully retained ownership of the château until the 20th century.
